

Now the hunt is on!

I don't see why I've got to be covered in this stuff!!

It's so they can't tell we're here

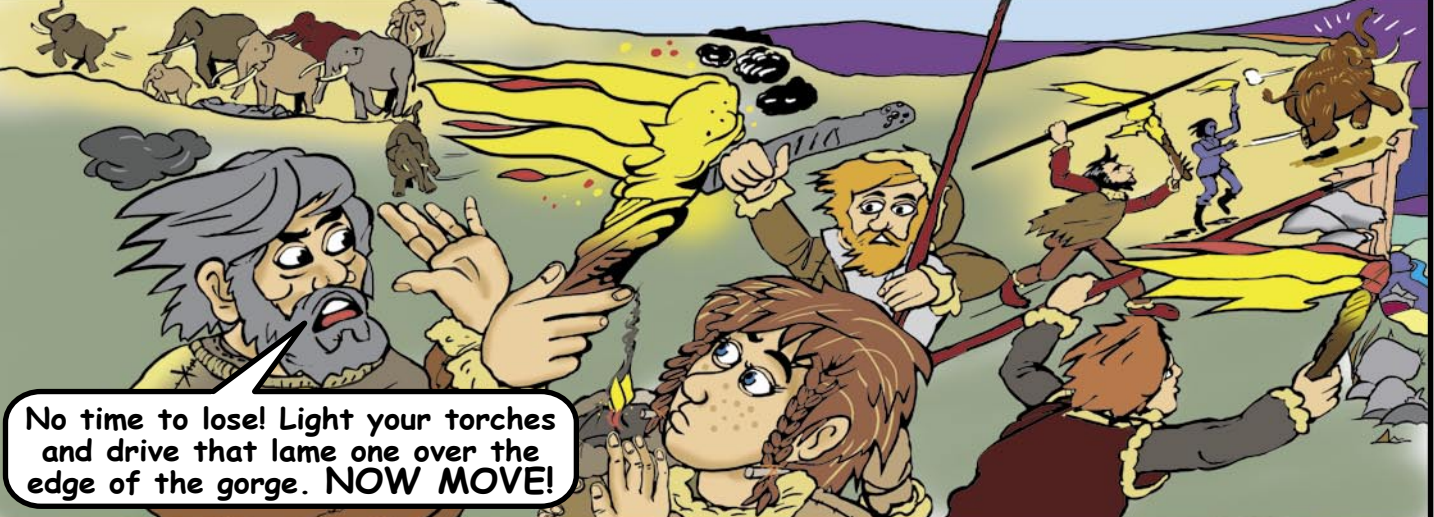

Eana uses her fire kit to light a torch

May the Gods bless us... NOT YET!

OOPS!

But the herd smell smoke and panic...

No time to lose! Light your torches and drive that lame one over the edge of the gorge. NOW MOVE!

Yikes! Hyenas are eating our mammoth. Light a big fire to keep them away

The butchering is complete. Let's get home for a feast!

The worst bit was being covered in pool

END
