Aging Paper

Why not age some paper and make your own Monteaule Letter or write a tortured confession and send it in to us to display on our web site. Aging paper involves a hot oven, so you will need to ask an adult to help you.

1. Put your paper on a baking tray.

2. Make a cup of strong tea or coffee, and pour it onto the paper.

3. Let the paper soak, then tip away the extra water.

4. Ask an adult to put the paper in a very hot oven to dry it out. Don't go away in case it catches fire!

5. When the paper is dry and dark, ask an adult to take it out of the oven and put it somewhere to cool down.

6. Now you can write on it!
